## Solid Wood

---

Zimmerman Chair builds furniture from solid cherry, oak, and maple. Personal care is given in finishing to bring out the beauty of these hardwoods. Since it is a naturally occurring wood fiber, you can expect grain and color variation. Also, you will notice expansion and contraction of the wood fibers. But the unsurpassed benefit of solid wood is its enduring strength and beauty, which, with proper care, will last a lifetime.

## Hardware Options

---

See the catalog for hardware options. No hardware options available unless the hardware brochure in the catalog shows it. When ordering, please specify hardware # and finish.

## Finishes

All products, both stained and painted, are coated with a premium catalyzed conversion finish. This finish is environmentally friendly, very tough, and has exceptional resistance to water, solvents, and household chemicals.

Natural finish in all wood species is available as a clear coat at Heritage/Renew pricing

### Light Colored Finishes
